

SLA and support policy

This document describes NimbusStore's uptime commitment and support response times by account tier.

Uptime SLA

Pro and Enterprise tier accounts have a formal uptime commitment of 99.9% monthly uptime. The Starter tier has no formal uptime SLA and is provided on a best-effort basis. The Free tier has no uptime commitment of any kind.

Service credits

For Pro and Enterprise accounts, if monthly uptime falls between 99.0% and 99.9%, customers receive a service credit equal to 10% of that month's bill. If monthly uptime falls below 99.0%, the credit increases to 25% of that month's bill. Credits are capped at 100% of the affected month's bill and must be requested within 30 days.

Support response times

For Severity 1 issues (complete service outage), Enterprise customers receive a 1 hour response time commitment, and Pro customers receive a 4 hour response time commitment. Starter tier customers are supported on a next-business-day basis through the community forum only, with no guaranteed response time.

Support channels

Email support is available to all paid tiers. In-app chat support is available to Pro and Enterprise. A dedicated Slack channel with the NimbusStore support team is available to Enterprise customers only.
